PRINCE SAH

IT SUPPORT | SOFTWARE ENGINEER | QA & TESTING

[0482381514] | [ps749924@gmail.com] | Sydney, NSW | GitHub: github.com/prince749924

PROFESSIONAL SUMMARY

IT postgraduate with practical experience in quality assurance and testing, computer repair, customer service, and academic software projects. Familiar with troubleshooting hardware and software, manual testing, test-case preparation, defect documentation, and web/mobile application development. Hands-on exposure to React, TypeScript, .NET, PostgreSQL, Docker, Playwright, Flutter, and Python. Seeking an entry-level IT Support / Help Desk or junior QA/testing opportunity in Australia.

TECHNICAL SKILLS

IT Support: PC and peripheral troubleshooting, hardware/software setup, basic network troubleshooting, customer support
Testing & QA: Manual testing, test-case design, regression testing, defect reporting, test evidence, Playwright, end-to-end testing
Programming: JavaScript, TypeScript, C#, Python, Dart, SQL
Web & API: React, Vite, Node.js, Express.js, ASP.NET Core, REST APIs
Databases & Tools: PostgreSQL, MongoDB, Git/GitHub, Docker, Firebase (planned for SplitMate), Figma
Data & ML: pandas, scikit-learn, Random Forest, Gradio

PROFESSIONAL EXPERIENCE

Computer Repair Technician | Reliable IT Solution, Australia (2025 – Present)

- Assist with computer repair and troubleshooting tasks, including diagnosing hardware and software issues.
- Support customers by explaining technical issues and helping restore devices to working condition.

Quality Assurance & Testing Officer | UK Colleges, Nepal (May 2024 – October 2024)

- Supported quality-assurance processes by reviewing assessment tools and observing assessment practices.
- Analysed performance data and contributed research-based recommendations to improve quality and consistency.

SELECTED PROJECTS

Job Tracker / Job Finder — Group Software Engineering Project

- Contribute as Data Analyst and Tester to a job-tracking web application built with a .NET backend and PostgreSQL.
- Prepare test cases and datasets, conduct manual testing and regression retesting, and document results and evidence.
- Developed Playwright end-to-end test scripts for login, registration, dashboard, search, filtering, status updates, archiving, and resume upload.

Najar Nepal — Civic Accountability Platform

- Designed a web platform concept for citizens to explore public representatives, projects, promises, and performance.
- Technology exposure: React, TypeScript, Node.js, Express.js, MongoDB, and Leaflet maps.

Dementia Detection Web App

- Built a machine-learning project comparing classical ML and deep-learning approaches for dementia prediction.
- Used Python, pandas, scikit-learn, joblib, and Gradio; Random Forest was identified as the best-performing classical model in project work.

EDUCATION

Master of Information Technology (Software Engineering) | Charles Darwin University, Australia | [30/11/2026]
Bachelor's degree | Softwarica College of IT and E-Commerce, Nepal | [11/2023]
