Business Analyst | QA | Data Analyst | Report Analyst

Professional Summary

Final-year Master of Information Technology (Software Engineering) student with hands-on experience across business analysis, software testing, data analysis and documentation. On a full-stack web application project, I wrote the BRD and SRS covering 34 functional requirements, built an automated test suite of 117 tests using Playwright and TypeScript, and created a 505-record relational dataset with a Power BI data model. I bring clear writing, structured thinking and a focus on making sure delivered work matches the requirements.

Skills

Business Analysis: Requirements gathering, BRD, SRS, user stories, acceptance criteria, use cases, business rules, MoSCoW prioritisation, gap analysis, requirements traceability matrix (RTM)

Modelling: Use case diagrams, state diagrams, entity-relationship (ER) diagrams, data dictionaries

Quality Assurance: Test case design, test automation, API testing, end-to-end (E2E) UI testing, regression testing, defect reporting, status transition matrix

Test Techniques: Equivalence partitioning, boundary value analysis, state transition testing, negative testing, access-control testing

Data Analysis: Data modelling, dataset design, conversion analysis, Power BI, Microsoft Excel

Tools: Playwright, TypeScript, Node.js, Power BI, Excel, Word, PowerPoint, Git, GitHub

Technical Knowledge: React, ASP.NET Core, REST APIs, PostgreSQL, AWS S3, JSON, JWT authentication

Methods: Agile, Scrum, sprint reviews, meeting minutes, progress reporting

Project Experience

Business Analyst, Data Analyst, Report Analyst and QA – JobTrack (Job Application Tracking System)

Charles Darwin University, Sydney – PRT681 Software Practice | Aug 2026 – Oct 2026

Business Analyst

- Wrote the Business Requirements Document (BRD) and Software Requirements Specification (SRS).
- Wrote user stories with acceptance criteria and prioritised requirements using MoSCoW.
- Created use case, workflow, and ER diagrams.

- Updated the BRD and SRS to match the final system.
- Wrote the user manual for end users.

Report Analyst

- Recorded weekly meeting minutes.
- Maintained group and individual timesheets to track progress.
- Prepared the final project presentation.

Data Analyst

- Created a sample dataset of 100 job applications with a data dictionary.
- Built a Power BI data model and analysed results by job platform.

QA

- Created the status transition matrix and requirements traceability matrix.
- Built automated tests using Playwright and TypeScript.
- Found and reported defects before release.

Education

Master of Information Technology (Software Engineering)

Charles Darwin University, Sydney | 2025 – 2027

Bachelor in Computer Application / Himalaya College of Engineering

Tribhuvan University, Kathmandu | 2019-2024

Certifications

- Business Analysis Basics – Certificate of Completion, 2026
- Foundations of Agile Framework – Course Completion, 2026

Work Experience

Quality Assurance Engineer /Smart Ideas Pvt. Ltd. (Affiliate to Hamro Patro Inc.)

March 2024 – February 2025

Quality Analyst Engineer / Spiralogics Inc.

April 2025 – July 2025
