

Week 4: Discussion on Project Documentation

Aug 11, 2026 · 11:00 AM - 11:30 AM · SYD-S226 PRT681/PRT585 SOFTWARE ENGINEERING: PRACTICE

Unit: Software Engineering Practice

Meeting Topic: Project Documentation Review – SRS, BRD, Use Case Diagrams and ERD

Prepared By: Pooja Tiwari

Attendees

- Trinh Hieu Tran
- Pooja Tiwari
- Prince Kumar Sah

Meeting Purpose

The purpose of this meeting was to review the materials the group has worked through since project selection and to share and discuss the documents each member has produced for the JobTrack project, including the SRS, BRD, use case diagrams, and ERD.

Agenda

- Recap materials covered since the JobTrack project was selected.
- Share and discuss the SRS (Software Requirements Specification).
- Share and discuss the BRD (Business Requirements Document).
- Share and discuss use case diagrams.
- Share and discuss the ERD (Entity Relationship Diagram).

Documents Reviewed

Document	Discussion Outcome
SRS (Software Requirements Specification)	Members shared the SRS documents they have each worked on, comparing the structure, level of detail, and requirement descriptions used across the drafts.
BRD (Business Requirements Document)	The BRD produced for the project was shared and discussed, with the group reviewing the business requirements captured and giving feedback on content and formatting.
Use Case Diagrams	Use case diagrams for the JobTrack system were reviewed as a group, covering the main actors and interactions identified so far.
ERD (Entity Relationship Diagram)	The ERD was shared and discussed, covering the entities, attributes, and relationships proposed for the JobTrack database.

Discussion Summary

The group recapped the materials covered since JobTrack was selected as the project in Week 3, clarifying any outstanding questions before moving into individual document reviews. Each member then shared the documents they had produced for their role, and the group discussed the SRS, BRD, use case diagrams, and ERD in turn, comparing approaches and giving feedback on content and structure.

Decisions Made

- Members will continue refining the SRS, BRD, use case diagrams, and ERD based on the feedback discussed.
